ELECTRIC TRAINS

This year, America's largest manufacturer of electric trains brings you a new Chattanooga Choo Choo, with a brand new feature: the Chug-Chug sound, synchronized to the speed of the train. Chug-Chug joins the sound of the old-fashioned steam whistle, and real smoke.

This year, there's another exciting new train set from Tyco: the Silver Streak. It features a big gleaming silver diesel loco and caboose, plus our new operating piggyback loader/unloader with a truck depot and warehouse that lights up in the dark with Tyco NITE-GLOW.

But the best part of a Tyco train is that it's only the beginning. As the leader in model railroading, Tyco offers you wide range of accessories. You can start with a small layout in very little space — then add switches, more track, and action accessories. Tyco's Layout Expander System with its 32-page instruction manual leads you in easy stages to your own Railroad Empire. Your Tyco train is only the beginning of a lasting and satisfying hobby.

LAYOUT EXPANDER SYSTEM

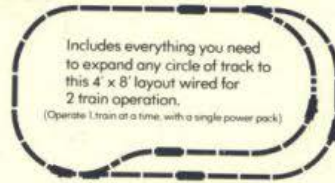

With Tyco's Layout Expander System you can build this exciting Railroad Empire in 4' x 8' of space—and you can do it in easy stages—Each component is available individually. Every component is performance matched to the layout. The more you add—the more fun you have. With the complete Layout Expander System, you can operate up to four trains. (You can control two trains at a time independently, and you can switch any of the four trains among any of the three mainline tracks. You have remote control switching, blocking and uncoupling—unload freight—logs, ore, crates, pipe by remote control. Even a piggy-back trailer. The easiest way to start your Railroad Empire is with the Track Layout Expander (Stock #7903). Here in one package is everything you need to expand any circle of track to a 4' x 8' double oval track layout, wired for 2 train operation (one train at a time with a single power pack). The Instruction Manual is included.
