

ELECTRIC TRAINS

This year, America's largest manufacturer of electric trains brings you a great new steam loco set: Clementine. Based on the song that has made folk history, Clementine features an operating gold mine, an operating dump car, real smoke and Tyco's exclusive Nite-Glow. It's the train that will be your gold mine in 1979!

And back for a second year is the train set that was an all-time best seller in 1978: Silver Streak. It features a big gleaming silver diesel loco and caboose, plus an operating piggyback loader/unloader with a truck depot and warehouse that light up in the dark with Tyco's Nite-Glow.

But the best part of a Tyco train is that it's only the beginning. As the leader in model railroading, Tyco offers you a wide range of accessories. You can start with a small layout in very little space — then add switches, more track, and action accessories. Tyco's Layout Expander System with its 32-page instruction manual leads you in easy stages to your own Railroad Empire. Your Tyco train is only the beginning of a lasting and satisfying hobby.

LAYOUT EXPANDER

With Tyco's Layout Expander System you can build this exciting Railroad Empire in 4' x 8' of space-and-you can do it in easy stages. Each component is available individually. The more you add the more fun you have. With the complete Layout Expander System, you can operate up to four trains. You can control two trains at a time independently, and you can switch any of the four trains among any of the three mainline tracks. You have remote control switching, blocking and uncoupling—unload freight—logs, ore, crates, pipe by remote control. Even a piggyback trailer. The easiest way to start your Railroad Empire is with the Track Layout Expander (Stock #7903). Here in one package is everything you need to expand any circle of track to a 4' x 8' double oval track layout, wired for 2 train operation (one train at a time with a single power pack). The Instruction Manual is included.
